

PRESS RELEASE

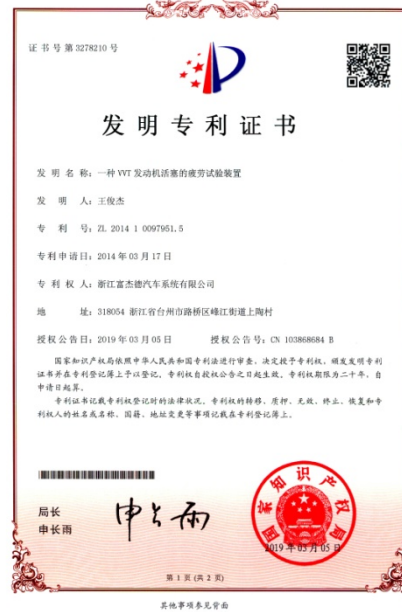

Fulgid won two invention patents

- Fulgid won two invention patents
- Technological innovation, patent rights
- Improve the system and further enhance competitiveness

Taizhou, Zhejiang, China, March 15th, 2019—Fulgid As auto manufacturing partner and leading domestic high-end auto parts innovative products and solutions provider won two invention patents.

The two scientific and technological achievements developed by our company "a fatigue test device for a VVT engine piston" authorized patent number: ZL201410097951.5 and "A medium-mounted variable valve timing device and engine" authorized patent number: ZL201610763265.6 were awarded the invention patent certificate issued by the State Intellectual Property Office. The patent terms of these patents are twenty years.

Technological innovation is not a flash of light, but a lasting "war". The road is full of hardships and bumps, but the value it brings is immeasurable. As a kind of enterprise intellectual property, patents are also very important intangible assets of enterprises.

In the future, Fulgid will continue to strengthen the research and development of patent technology and the transformation of achievements, further improve the intellectual property protection system, give full play to the advantages of independent intellectual property rights, and form a continuous innovation mechanism to maintain the leading position of technology, thereby enhancing the company's core competitiveness.
